## In order to serve you better

To assist you with your employee benefit plan, we are continually updating our website. Located at:

[www.mainstayinsurance.ca](http://www.mainstayinsurance.ca)

The site provides easy access to many insurance company's websites and to the health and dental claim forms you utilize on a regular basis. We have also added links to the log on pages for members (employees) in order to provide quick entry to other websites.

If you use a form that is not on our website and would like it added, please send us an e-mail at:

[feedback@mainstayinsurance.ca](mailto:feedback@mainstayinsurance.ca)

### **Did you know that..?**

Technology is changing and the insurers are utilizing new methods to make claims processing faster, easier and cheaper.

Some insurers have introduced programs allowing claims to be paid through a web based claiming system.

For more information, see your plan administrator or visit the insurers website and log on as a plan member. From the website you obtain information on direct depositing payments, your history of claims, blank forms etc.

If you have further questions, please contact the customer service number of your insurer.

## Please READ THIS before you travel

Each year we meet with clients at renewal time to discuss issues that impact your benefit plan. A topic that is often discussed is the limitations of your plan's emergency travel coverage. These limitations exist in every plan to some degree (both group and individual coverage) and everyone should be aware of them.

The most important item is the definition of what **Emergency** travel coverage is in the first place. Most insurers define it as "an accident or injury or an **unforeseen illness** that **begins** while the insured person is traveling". The key words highlighted above are often further clarified by the insurer as "any illness previously diagnosed or treated in Canada may not be covered". **WHAT DOES THIS MEAN TO YOU?**

These definitions may mean that you are **NOT** covered when you travel out of Canada if:

1. You are in a high-risk pregnancy or beyond your 32-35<sup>th</sup> week of pregnancy.
2. You have recently had or are scheduled to have surgery or treatment for a medical condition.
3. It has been suggested that you have a medical test, have been scheduled for, or recently had and/or are awaiting test results.

4. Your physician would say or has said that you are not medically stable or safe to travel.

5. You have had recent changes to your medication such as the introduction of a new drug or dosage changes to existing drugs.

It is important to note that your out of country coverage may still be in effect for other illnesses and injuries that are **NOT** related to your pre-existing condition.

The second item that can cause a problem is the requirement by most carriers to contact them immediately when medical treatment is required.

This is becoming more significant as many carriers are amending plans to say that they will **NOT** pay if they are not notified immediately of a medical issue.

Often when someone seeks medical attention in a foreign country (this includes the US) they are asked for their insurance information and are assured that the hospital will "take care of everything". This **DOES NOT** mean that the hospital will contact the insurer. In fact, they may intentionally **NOT** contact them in an effort to run additional and possibly unnecessary tests. Some insurers specifically state

for example, that they will not pay for any PET/CAT scans, or MRI's unless they are pre-authorized.

What can you do to ensure that you are going to have full medical coverage in place when you travel?

1. Ensure you are in good, stable health and are not traveling against doctor's orders. Speak to your doctor if you have concerns. Your health should come ahead of a trip to the beach.

2. Take your travel insurance card and brochure with you when you travel.

3. Call the insurer the moment an event arises. Do not wait for a hospital or clinic to do so on your behalf.

When you are traveling, consider the use of a service such as Canada Direct (1-800-561-8868). This service provides you with a local phone number (at your destination) so that you can place a call from most countries back to Canada. This is done with an English-speaking operator and allows services such as collect calling and third party billing. Calling the number above or checking the front pages of your local phone directory can provide more information.

Your situation and the contract provided by your insurer as well as any relevant legislation shall always take precedence. Always obtain appropriate legal, human resource or accounting advice.

## T - 4 Reminders – Don't Forget !!!!

Each year at your plans' renewal time we review some of the taxation issues that impact your benefit plan. Your accountant or bookkeeper may also raise these issues.

To ensure that issues are dealt with in a timely manner, we continue to include an annual reminder in this newsletter. This is not intended to offer advice but simply to remind you so that you can discuss them with your accountant to ensure that your situation is handled in the most appropriate manner.

Employee and dependent life insurance that is employer paid is a taxable benefit in all provinces and ALL amounts must be shown on your employee's T-4. If your employee pays the premium for this benefit then this is not an issue.

Accidental Death & Dismemberment (AD&D) premiums paid for by employers in QUEBEC ONLY are considered taxable and are treated like life insurance premiums.

Long-term disability premiums paid by the employer are generally NOT a taxable benefit but WILL be taxed at the time a claim is received. An alternative may be to have the employees contribute 100% of this premium cost throughout the year, to maintain a tax-free benefit for them at the time a claim is approved and the benefits received. The tax bulletin IT-428 can provide information on how to best handle this benefit.

Health and dental premiums (including Health Care Spending Accounts) are a taxable benefit to Quebec employees.

There are a number of pieces of legislation that interact and contradict each other. An example of this affects plans with Quebec employees. The provincial rules dictate that any benefit paid to an employee (such as HCSA amounts or cost plus benefits) must be included as a taxable benefit for that individual. However, privacy legislation indicates that this data may not always be provided to the employer to ensure the employees right to privacy. This makes the first piece of legislation difficult to comply with.

Because of the complexity of these issues, it is always best to discuss them with your human resources professional or accountant to find the method best suited to your particular situation. Pre-planning now can save larger problems later.

## Dispensing fees

The cost of prescription drugs is made up of two primary components. The first is the actual cost of the drug. This pricing is generally set on a national level and varies very little across the country unless a province specifically allows an adjustment (which is currently happening in Ontario).

The second component of the drug cost is the dispensing fee. This is the fee the pharmacy charges for the act of dispensing the drug to you, the consumer.

This fee is posted by each pharmacy (in Ontario), typically near the cash register or where you place or pick up your script. This fee varies significantly from one pharmacy to another.

A quick phone survey of local Thornhill/Richmond Hill pharmacies showed the following price range:

Shoppers	\$11.99
IDA	\$11.49
Loblaws	\$9.49
Wal-Mart	\$8.97
Costco	\$4.11

With a range of almost eight dollars per script, this cost can add up significantly. It makes sense to let employees know there are alternatives that can save both you and them money.

You and your employees should speak to the pharmacist and ask what dispensing fee you are paying. Is there another option available? Asking questions might help save you hundreds of dollars each year.
